*The watches shown in this leaflet are only a selection — ask your jeweller to show you the full SEIKO range.*

# SEIKO

## MOST HONoured WATCHES

Few manufacturers have triumphed in tests as have SEIKO. Recognition of their high precision in production, uniform accuracy of the parts and technical advancements won for them the honour of official timekeeper to the 18th Olympic Games — the first time a non-European manufacturer has been chosen.

For the record, SEIKO achieved best marks in quality performance tests in Japan, 1962 — top prizes and awards at Neuchatel, Switzerland, 1963 — supremacy in independent tests, America, the same year and an award in recognition of efforts in developing timepieces for the Olympic Games.

You can rely implicitly on SEIKO.

*Presents beautifully presented are doubly welcome — that is why a SEIKO watch comes in a handsome presentation case — the sort of case to treasure as a family heirloom.*
